

# KY HOME PERFORMANCE

## What is KY Home Performance?

KY Home Performance (KHP) is a \$6.1 million dollar program that will leverage an estimated \$17.5 million in private capital and funding. It is funded through a \$4 million dollar grant from the American Recovery and Reinvestment Act plus an additional \$2.1 million in funding provided by Kentucky Housing Corporation.

This program will provide funding to assist with the installation of energy efficient measures to over 1,200 single family residences across the Commonwealth of Kentucky.

The program:

- Provides homeowners with sound advice on energy efficiency upgrades to their home.
- Offers financing and rebates to help homeowners make investments in their home.
- Allows homeowners to save energy and money on their utility bills.
- Allows qualified contractors to be recognized with other quality providers on KHP Web site.

## Why participate with KY Home Performance?

KHP provides an entry into a new and expanding industry, providing business opportunities for contractors and builders.

- ENERGY STAR is one of the most highly recognized brands in the nation.
- Allows contractors to diversify their services and differentiate themselves in the market.
- Provides resources to help contractor to close the deal.

## What do I need to do to sign up?

- Become a Building Performance Institute (BPI) certified Building Analyst or work with a BPI-Certified Building Analyst.
- Sign a Partnership Agreement.
